## Frontend Developer

**Contact:** (661-292-1486) | benbatres1212@gmail.com

**LinkedIn:** <https://www.linkedin.com/in/benjamin-batres-9216b5329/>

**GitHub:** <https://github.com/BenjaminBatres>

**Portfolio:** <https://benjaminbatres.github.io/Portfolio/>

Experienced software developer with half a year of expertise in frontend and full-stack development. Skilled in React, JavaScript, and Firebase, with a strong focus on creating scalable, efficient, and user-friendly applications. Dedicated to improving user experiences, optimizing performance, and driving projects to successful completion. Continuously eager to learn and implement new technologies and methodologies.

## Technical Skills

**Programming Languages:** TypeScript, JavaScript, HTML, CSS, React, Node.js, Git, Vercel, vscode, GitHub pages

**Frameworks:** React, TailwindCSS, Firebase, NextJS, React Query, React Hook Form

**Tools & Other platforms:** Vercel, GitHub, Figma, VsCode, Jest, React Testing Libraries

## Experience

### Frontend Developer Internship

Remote | January 2024 - Present

- Completely transformed a static HTML, CSS, JavaScript, and React single-page application into an interactive user interface using animations, transitions, and carousels.
- Processed API requests to dynamically represent data from a cloud server, using skeleton loading states, paginations, and dynamic routing.
- Utilized Git version controls and interface to work and thrive in a virtual and collaborative team environment.

## Projects (personal)

### Netflix Clone: (NextJS, TypeScript, JavaScript, Firebase)

- Developed a Netflix clone using React and Firebase to practice building a dynamic and responsive web application. The app fetches data from the TMDb API to display movies and TV shows by category, supports user authentication, and is fully responsive. Through this project, I strengthened my skills in API integration, React hooks, and UI design.

### E-commerce Library Website: (React, JavaScript, HTML, CSS)

- Developed an e-commerce application with page routing, responsive design, lazy loading for images, and cart/checkout functionality

### Movie Search: (React, JavaScript, HTML, CSS)

- Developed an e-commerce application with page routing, responsive design, lazy loading for images, and cart/checkout functionality

## Education:

Frontend Developer BootCamp | [Certificate](#)

Frontend Simplified, 2024

## Other

Interests: (coding, camping, gaming, tv series)

Referees: Provided upon request
